

HARSHALI BHUSHAN JAGTAP

MSc Artificial Intelligence & Data Science Student | AI/ML Enthusiast

Phone: 8177964037 | **Email:** harshalijagtap203@gmail.com | **Location:** Pune, Maharashtra

GitHub: github.com/harshalijagtap | **LinkedIn:** linkedin.com/in/harshali-jagtap | **Portfolio:** harshalijagtap.github.io/My-Portfolio

PROFESSIONAL PROFILE

MSc Artificial Intelligence & Data Science student with a BSc in Computer Science and hands-on experience in machine learning and web development. Passionate about Supervised Learning, Predictive Modeling, and Python ecosystems with practical exposure to building and deploying full-stack ML applications. A proactive problem solver eager to leverage advanced analytical thinking to drive impactful technology solutions.

EDUCATION

MSc — Artificial Intelligence & Data Science

Indira University, Tathawade, Pune

2026 – 2028

Currently Pursuing

BSc — Computer Science

Modern College of Arts, Commerce and Science, Pune

2023 – 2026

TECHNICAL SKILLS

Programming: Python, SQL, HTML, CSS, JavaScript

AI/ML: Machine Learning, Supervised Learning (Classification, Regression), Decision Trees, SVM, Model Evaluation

Data Science: Pandas, NumPy, Matplotlib, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization

Tools & Deployment: Flask, Jupyter Notebook, Google Colab, Git, GitHub, Render

Soft Skills: Analytical Thinking, Problem Solving, Strategic Communication, Teamwork, Rapid Upskilling

KEY PROJECTS

Heart Disease Prediction System | Python, Pandas, NumPy, Scikit-learn, Flask, Render

- Designed and developed an end-to-end Machine Learning web application to accurately predict heart disease vulnerabilities using patient health metrics.
- Executed comprehensive data preprocessing, handling missing variables, and Exploratory Data Analysis (EDA) to engineer clean pipelines.
- Evaluated and trained multiple classification models (including Decision Trees, SVM) to optimize recall and overall predictive performance.
- Architected a sleek user interface using Flask and successfully deployed the operational product online via Render.

Interactive Personal Portfolio Website | HTML, CSS, JavaScript, GitHub Pages

- Engineered a fully responsive, visually engaging professional web portal highlighting academic milestones, skill mappings, and active code repositories.
- Integrated interactive structural blocks utilizing raw JavaScript to embed cross-platform communication gateways (GitHub, LinkedIn, Email).
- Deployed and actively maintained production readiness through automated hosting via GitHub Pages workflow.

AREAS OF INTEREST & COMPETENCIES

Core Focus: Artificial Intelligence • Machine Learning Engineering • Advanced Data Analytics • Python Ecosystem Development • Predictive Modeling • System Optimization
